About the workshop

Dear colleagues,

We are delighted to invite you to the Neuro Pre- conference workshop, organized as part of the prestigious SINNCON. This workshop promises to be an engaging and enlightening experience for professionals and enthusiasts in the field of neuroscience.

This conference is designed to provide participants with a deeper understanding of cutting edge research and emerging trends in neuroscience. The event will be featured by expert led sessions and interactive workshops. Not to mention you will have opportunities to connect with your peers, researchers and innovators in the field.

Objectives of the workshop

The participants will be able to understand the nurses role in preventing secondary brain injury , innovations in traumatic brain injury management, mental health in neuro patients and role of Ai in neuronursing. Apart from this we have neuronursing workshops where people can learn hands on skill.

TIME	TOPIC	SPEAKERS
